Mr Steven H Gunderson RFCA Coordinator Colorado Department of Public Health and Environment 4300 Cherry Creek Drive South Denver, CO 80222-1530

Dear Mr Gunderson

Please find enclosed a completed Rocky Flats Cleanup Agreement Standard Operating Protocol (RSOP) for Component Removal notification form for building 865 component removal

In accordance with the Component Removal RSOP, this memorandum and its attachment are notification for RSOP implementation. This notification is for all activities required to bring building 865 to the unrestricted release criteria with the exception of RCRA unit closure for which a separate RSOP notification will occur. RSOP work under this notification will involve component removal, size reduction, and decontamination activities utilizing the methods specified in the RSOP. A decommissioning strategy for building 865 was included in the Remediation, Industrial Decontamination and Decommissioning, and Site Services (RISS) Project Management Plan (PMP). Once the technical approach is received from the selected subcontractor, it will be compared to this strategy, a scoping meeting will be held with CDPHE to discuss the differences between the original strategy and the subcontractor's strategy.

There are no open or active RCRA units associated with these facilities and the pipe associated with the building 866 RCRA unit in building 865 will be clearly posted so that the demolition contractor will clearly know what he is dealing with

Reviewed for Addressee Corres Control RFP

1/17/02 leg Date By The requirements, methods, controls and processes outlined in the RSOP have been included in the scope of work for the contract. If the subcontractor would like to use a method or process not included in the RSOP then the subcontractor is required to notify the prime contractor and an additional RSOP notification will be initiated and decision document modification pursued

The subcontractor will conduct work in accordance with his work control documentation. The exact methods and process selection will be communicated with CDPHE through an
